

Launch of LabCare V2 Website and Mobile App – A Smarter Step Forward in IVF Lab Monitoring

Date: 21st September 2025

Shivani Scientific Industries Pvt. Ltd. is proud to announce the official launch of the **LabCare V2 platform**, marking a significant leap forward in intelligent monitoring solutions for IVF laboratories. The upgraded version introduces a completely redesigned website and a brand-new mobile application, both crafted to enhance user experience, connectivity, and performance across all devices.

LabCare V2 represents the next generation of laboratory monitoring technology, offering a modern dashboard with real-time visibility into lab conditions, ensuring users have the most critical information at their fingertips. The platform introduces faster alerts through SMS, email, and voice notifications, helping IVF professionals respond instantly to any deviation in lab parameters. With a refreshed design and improved navigation, users can now manage their lab environment more efficiently and securely.

The new system is optimized for cross-platform access, providing a seamless experience across desktop, tablet, and mobile. Enhanced data protection and upgraded user authentication mechanisms ensure that the highest standards of security are maintained. Combined with faster loading times and a clean, intuitive interface, LabCare V2 delivers reliability and simplicity for everyday monitoring.

Users can now access the new version by visiting **www.ivflabcare.com**. Existing users can log in using their registered email ID, and those accessing for the first time can easily generate a new password by clicking on the “Forgot Password” option.

Alongside the website, the **new LabCare V2 mobile app** is also live on the **Google Play Store**. Users are requested to uninstall the old LabCare app and download the updated version to enjoy uninterrupted access to the latest features and updates. The app will also be available soon on the Apple App Store.

For any queries, feedback, or assistance related to the new platform, users can contact the support team at **support@ivflabcare.com**.

The launch of LabCare V2 reinforces Shivani Scientific’s commitment to innovation in IVF technology, continuously enhancing solutions that bring precision, connectivity, and peace of mind to laboratory professionals worldwide.

LabCare V2 — Empowering IVF Labs with Smarter, Connected Monitoring.

Thanks for your patience and support
